Additionally, on November 27, 2013, the Company announced that it signed a Joint Venture Agreement (the "JV Agreement") with Star Minerals Group Ltd. ("Star Minerals") granting the Company an option to acquire a 100% interest in two claims located in the Athabasca Basin, near the Gibbons Creek Property. Under the terms of the JV agreement, the Company has the right to earn a 100% interest in the two claims by making cash payments totalling \$60,000 (paid) and issuing 200,000 common shares (issued) over a 12 month period. Star Minerals will retain the option of a 25% buyback for four times the exploration monies spent by the Company to the date that the buyback option is exercised. The buyback option will be exercisable at any time up to a 90 day period following the completion and publication of a NI 43-101 compliant resource estimate. The transaction was approved by the TSX-V on November 28, 2013. As of the current date the Company has satisfied the terms of the agreement and earned its interest in the property.

short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash and cash equivalents.

Historically, the Company's sole source of funding has been the issuance of equity securities for cash, primarily through private placements. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding.

(c) Foreign exchange risk

The Company is not exposed to foreign currency risk on fluctuations considering that its assets and liabilities are stated in Canadian dollars.

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. With respect to financial assets, the Company's practice is to invest cash in cash equivalents in order to maintain liquidity. Fluctuations in interest rates affect the fair value of cash equivalents.

(e) Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor and creditor confidence and to sustain future development of the business. The capital structure of the Company consists of equity, net of cash and cash equivalents.

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
